

OMAHA - Congressman Lee Terry released the following statement regarding Senator Larry Craig:

"The decision of whether Senator Craig should remain in the U.S. Senate is for now his to make. However, I believe he ought to step down, not just from his committee assignments but also from his Senate seat. His actions have disgraced the institution in which he serves. All elected officials are accountable for their actions, and when they betray the trust of the voters they should resign."
